

From Keith:

If you or Andrea or Dad wanted to say something on my behalf, it would really be just around the fact that I have SUCH AMAZING, BEAUTIFUL MEMORIES of my time with Nana. Despite not living in the same country as her for most of my youth, I feel extremely lucky to have had so many opportunities to not just visit, but also spend much quality time with her. I'm sure everyone who speaks will talk about her big personality and all of her wonderful traits... as a youngster she had an infectious and significant impact on me around the positiveness of life and importance of honesty. I'm sure I carry aspects of this all my life.

From the tales I tell Rory, he wishes that Nana were younger so he could experience her more. To Rory, I think she had become an icon to define "fun", "good", and "carefree" – this is telling because it's the cultivation of my memories of her, imparted on my son.

Missing you Nana.

Love,

Keith
